KATHRYN HINKELMAN

July 2023

Contact Information

Department of Architectural Engineering
Sustainable Buildings and Societies Laboratory
Pennsylvania State University
University Park, PA 16802

khinkelman@psu.edu
khinkelman.github.io
Google Scholar Profile
ORCID: 0000-0002-8297-6036
Former Surname: Van Lieshout

Education

Pennsylvania State University — Jun 2023
Ph.D. in Architectural Engineering
Concentration in Mechanical | GPA: 4.0
Thesis: *Modelica modeling & ecosystem biomimicry of district energy systems*

University of California at Berkeley — May 2015
M.S. in Mechanical Engineering
Concentration in Design | GPA: 4.0
Thesis: *Environmental impact and indoor environmental quality assessment of Pinoleville Pomo Nation demonstration home: An implementation of life cycle assessment and culturally-inspired design*

University of Denver — Jun 2013
B.S. in Mechanical Engineering
Summa Cum Laude, Phi Beta Kappa, Departmental Distinction | GPA: 3.97
Thesis: *Intensity rankings of plyometric exercises using joint power absorption*

Appointments

Pennsylvania State University
Postdoctoral Scholar, Sustainable Buildings and Societies Laboratory — Jul 2023 – Present
IBUILD Research Fellow, U.S. Department of Energy Building Technologies Office, Sustainable Buildings and Societies Laboratory — Jan 2022 – Jun 2023
Advisor: Dr. Wangda Zuo

University of Colorado Boulder
IBUILD Research Fellow, U.S. Department of Energy Building Technologies Office, Sustainable Buildings and Societies Laboratory — Aug 2021 – Dec 2021
Research Assistant, Sustainable Buildings and Societies Laboratory — May 2019 – Aug 2021
Teaching Assistant, Dept. of Civil, Environmental & Architectural Engineering — Aug 2018 – May 2019
Advisor: Dr. Wangda Zuo

Boulder Engineering Company
Mechanical & Electrical Engineer — Jul 2016 – Jul 2018
Mechanical Engineer — Jul 2015 – Jul 2016

University of California at Berkeley
Research Assistant, Berkeley Energy & Sustainable Technologies Laboratory — Jan 2014 – May 2015
Teaching Assistant, Dept. of Mechanical Engineering — Aug 2013 – Jan 2014
Advisor: Dr. Alice Agogino

Research Interests

Sustainable energy systems (cities, districts, buildings), thermal-fluid science, model-based systems engineering, equation-based modeling (Modelica), ecosystem biomimicry, human centered design, life cycle assessment, building controls, design thinking

Research Funding

National Science Foundation (NSF), Computer and Network Systems
EAGER: Collaborative Research: Modernizing Cities via Smart Garden Alleys with Application in Makassar City, **$175,000**, Award No. CNS-2025459, 07/20-06/22, PI Wangda Zuo
- Contributed to full proposal writing and concept development at the equivalent level of a co-PI

U.S. Department of Energy (DOE), Advanced Manufacturing Office
Optimal Co-Design of Integrated Thermal-Electrical Networks and Control Systems for Grid-interactive Efficient District (GED) Energy Systems, **$4,159,922**, Award No. DE-EE0009139, 06/20- 12/23, PI Wangda Zuo
- Contributed to full proposal writing and concept development at the equivalent level of a co-PI
- Coordination proposal requirements across academic (CU Boulder, RPI, UT Austin), national lab (LBNL, NREL), and industry (Amzur Technologies) team members

Presentation Sessions & Invited Talks

T-1. "Equation-Based Modeling and Ecosystem Biomimicry of Integrated Building Energy Systems." *Research Seminar*, Department of Civil, Architectural and Environmental Engineering, Drexel University, May 26, 2023.

T-2. "BICEPS – Biomimetic Integrated Community Energy and Power Systems." *U.S. Department of Energy Building Technologies Office (BTO) Peer Review*, Arlington, VA, April 24-28, 2023.

T-3. "Advancements in Multidomain Modeling and System-Level Biomimicry for the Comprehensive Design of District Energy Systems." *Research Seminar*, Department of Systems Engineering, Colorado State University, February 2, 2023.

T-4. "District Heating and Cooling." *Invited Lecture*, AE 597, Department of Architectural Engineering, Pennsylvania State University, Virtual, November 8, 2022.

T-5. "A Fast and Accurate Modeling Approach for Water and Steam Thermodynamics with Practical Applications in District Heating System Simulation." *The 2022 Building Performance Analysis Conference and SimBuild,* Seminar 5: Open Source Modeling for District Energy Systems, Chicago, IL, September 14, 2022.

T-6. "Ecosystem-Level Biomimicry for the Built Environment: Adopting Systems Ecology Principles for the Control of Heterogeneous Energy Systems." *The 5th International Conference on Building Energy and Environment,* Montreal, Canada, July 28, 2022.

T-7. "Virtual Testbed for Optimized Planning of Smart, Sustainable, and Connected Communities." *The 2022 IEEE Power & Energy Society General Meeting*, Denver, CO, July 19, 2022.

T-8. "From Furnaces to Forests: Innovations in Modeling and Simulation for the Transition of Legacy District Energy Systems to Integrated Biomimetic Designs." *Research Seminar*, Department of

Mechanical Engineering & Mechanics, Drexel University, Virtual, December 20, 2021.

T-9. "A Case Study on Condenser Water Supply Temperature Optimization with a District Cooling Plant." *The 14th International Modelica Conference*, Virtual, September 23, 2021.

T-10. "Modeling and Simulation of District Cooling Systems with Modelica." *IBPSA-USA Denver Chapter: Student Presentations*, Virtual, May 20, 2021.

T-11. "A Modeling Framework to Evaluate Energy, Transportation, and Communication Interdependence in Smart and Connected Communities." *The American Modelica Conference*, Virtual, September 22-24, 2020.

T-12. "A Modeling Framework to Evaluate Energy, Transportation, and Communication Interdependence in Smart and Connected Communities." *IBPSA-USA Denver Chapter: Student Presentations,* Golden, CO, November 21, 2019.

T-13. "Enhancing the Implementation of a First-order Equivalent Thermal Parameter Model to Enable Accurate and Robust Building Thermal Response Prediction." *Building Simulation Conference*. Rome, Italy, September 2-4, 2019.

T-14. "A Modeling Framework to Evaluate Energy, Transportation, and Communication Interdependence in Smart and Connected Communities." *Intelligent Building Operations Workshop*, Boulder, CO, August 7-9, 2019.

T-15. "Leveraging life cycle assessment to evaluate environmental impacts of green cleaning products." *22nd CIRP Conference on Life Cycle Engineering*, Sydney, Australia, April 7-9, 2015.

Teaching Experience

Grader, University of Colorado Boulder
AREN 4890: Sustainable Building Design — Fall '19, '20, '21

Teaching Assistant, University of Colorado Boulder
AREN 4317: Architectural Engineering Design — Spring 2019
AREN 3540: Illumination I — Fall 2018

Graduate Student Instructor, University of California, Berkeley
ME 110: Intro to New Product Development — Spring 2014
ME 107: Mechanical Engineering Laboratory — Fall 2013

Academic Tutor, Athletics and Recreation, University of Denver — Jan 2011 – Jun 2012
- Tutored students in Differential Equations, Calculus, and Engineering Concepts
- Taught class material that was missed due to athletic travel

Select Research Projects

Biomimetic Integrated Community Energy and Power System (BICEPS) — Aug 2021 – Jul 2023
Sponsored by DOE IBUILD Graduate Research Fellowship
- Leveraged biomimicry of mature natural ecosystems to design and control interconnected energy systems

Support for District Energy Simulation with Modelica — Jan 2019 – Aug 2021
Collaboration with the NREL and LBNL
- Created a new software analysis platform with the Modelica language to enable developers of community-scale construction projects to effectively evaluate and optimize district heating and cooling systems

Assessing Sustainability of Homes with the Pinoleville Pomo Nation — Oct 2013 – May 2015
M.S. Project, Committee Alice Agogino and Daniel Kammen, UC Berkeley
- Designed a culturally inspired indoor environmental quality monitoring tool for tribal residents
- Developed and tested the mechanical, electrical, and software systems for the PV-powered sensors

- Evaluated the life cycle impacts of the home with geothermal heat pumps and grid-tied PV system

Retrofitting Commercial Buildings with Smart Lighting Systems — Jan 2014 – Oct 2014
Sponsored by the California Energy Commission, UC Berkeley
- Computed potential energy savings from using a smart lighting system for demand response
- Performed an LCA of the smart lighting sensors and assessed the effective environmental payback

Honors and Awards

IBUILD Graduate Research Fellowship, **$164,000** total, 2 years — 2021-2023
U.S. Department of Energy, Energy Efficiency and Renewable Energy, Building Technologies Office
Managed by Oak Ridge National Laboratory

Borda Graduate Scholarship in Honor of Gifford H. Albright, Pennsylvania State University — 2022

Gordon D. Kissinger Graduate Research Fellowship, Pennsylvania State University — 2022

Harvey and Geraldine Brush Graduate Fellowship in Engineering, Pennsylvania State University — 2022

Marlene & Joseph Borda Architectural Engineering Graduates Fellowship, Pennsylvania State University — 2022

P.E.O. Scholar Award, **$20,000** international merit-based award — 2021

International Building Performance Simulation Association (IBPSA) Project 1 Scholarship Recipient — 2019

The Link Foundation Energy Fellowship Program Honorable Mention — 2019

Colorado Engineering Council Silver Medal & Certificate of Merit — 2013

Pioneer Award — 2013
*"The **highest honor** given to undergraduate students" at the University of Denver*

Mechanical Engineering Departmental Distinction, University of Denver — 2013

Taylor Achievement Award, Ortho Transmission, LLC — 2013

Hornbeck Scholar (7 quarters), University of Denver — 2010-2013

Dean's List (8 quarters), University of Denver — 2010-2013

A University of Denver Scholar-Athlete of the Year (4 years) — 2009-2013

NSCAA Scholar All-West Region Team — 2012

Second Team All-WAC Selection — 2012

Academic All-American First Team, Division I Women's Soccer — 2011

Preseason All-Sun Belt Conference Team — 2011

Sun Belt Conference Commissioner's List (all 3 seasons) — 2009-2011

SBC All-Conference First Team — 2019

DU Invitational All-Tournament Team — 2009

CS360's Primetime Performers of the Week (9/15) — 2009

Professional Associations

ASHRAE: American Society of Heating, Refrigerating and Air-Conditioning Engineers — 2017 – Present

IBPSA: International Building Performance Simulation Association — 2019 – Present

ASEE: American Society of Engineering Education — 2022 – Present

ASCE: American Society of Civil Engineers — 2023 – Present

Service & Leadership

Conference Chair Aug 2019
Intelligent Building Operations Workshop, University of Colorado Boulder
- Session chair for Modeling and Assessment Tools

Publication Reviewer
- Journal of Building Performance Simulation
- Energies
- IEEE Transactions on Smart Grid
- IEEE Access
- International Conference on Building Energy and Environment (COBEE)
- Building Simulation Conference

Collegiate Athlete Aug 2009 – Nov 2012
Division I Women's Soccer Team, University of Denver
- Balanced intensive athletic duties of regular practice, games, and travel with a difficult course load
- Regular starter and leader to the team, finishing 22nd in the nation in senior season
